To the questioner, may he be well:

Concerning shaving the beard with electric shaving machines—

See the sefer "Likutei Halachos" on tractate "Makos" (by the "CHOFETZ CHAIM"), page 14b ("Eyn Mishpot" op. cit.) where he writes that it is prohibited, and one may not be lenient in this matter.

It is also well known that the "CHAZON ISH" o.b.m. ruled that the use of all shaving machines is forbidden.

This is my response,
